## Outdoor Stage Hire

Professional stages for outdoor events

## Outdoor Event & Festival Stage Hire

Organising an outdoor festival event? Need a covered stage?

For outdoor events, a stage with a roof is an essential requirement. Here's why....

- Protection from the weather – rain and direct sunlight! Performers, instruments, electrical equipment need protection from the elements at any time of year.
- Built in rigging points for lighting, backdrops, decoration etc.
- Professional and safe structure compliant with health & safety regulations.
- Branding opportunities when using banners as a backdrop or suspended from stage wings. A great way to attract sponsorship for your event!
- Provides a focal point for your event site. Nothing shouts 'festival' more than an impressive ARC stage!

**Any questions? Just give our hire team a call on 01892 234025. We will be more than happy to help!**

## Gazebo Stages

Our gazebo stages are a cost effective way to provide an outdoor stage for your event – ideal for charity events, or where budget is limited. Our gazebos are commercial heavy duty grade and they will withstand most weather conditions.

The gazebo is secured to both the stage itself and to the ground for security. The gazebo cover comes with removable side and rear walls.

Small lightweight lighting fixtures can be fixed to the gazebo structures, but it is not suitable for moving head or heavy duty fixtures.

We can provide gazebo stages in three sizes –

The 3m x 3m gazebo stage is ideal as an outdoor stage solution for solo performers, small bands or DJs. The 3m x 3m gazebo stage is also perfect for use as a FOH sound/lighting control position, merchandise stall or small exhibition area.

The 4.5m x 3m gazebo stage is perfect as an outdoor stage for slightly larger bands, awards & presentations etc. It is also great for market stall retail use or as an exhibition space.

The 6m x 4m gazebo stage cover gives generous performance space for larger bands, choirs or theatrical performances. With or without the stage, the gazebo can be used for exhibitions, refreshments or retail.

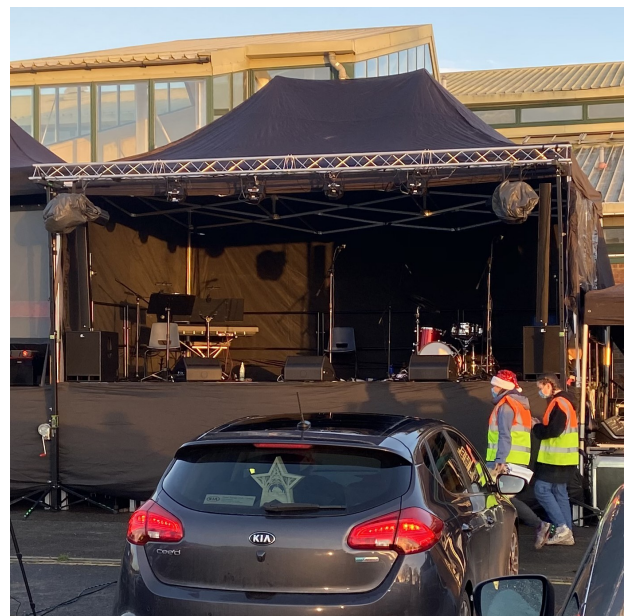

Also available – 1.5m x 1.5m gazebos which are great as ticket booths, information points or loudspeaker stack protection.

All our gazebos come with weights, ground stakes and straps as needed.

From £40.00 daily (gazebo only)

From £400.00 daily (gazebo & stage)

Hire cost dependent on size, location, access, terrain etc.

## Milos SR1 Custom 7m x 4m Stage With Sloping Flat Roof

The Milos SR1 Custom sloping flat roof 7m x 4m stage is our most cost effective truss stage and is ideal for small to medium sized events which require a little more festival authenticity than the more basic gazebo style stage. There is the flexibility to rig lighting fixtures for a lighting set up.

The stage roof will accommodate a stage of 7m x 4m. The quad truss roof structure is anchored to the ground and is secured using clamps, ballast and heavy duty ratchet straps as appropriate to the terrain. The flat roof slants to the rear to ensure any rainwater runs off. Removable rear and side walls are included.

The stage itself has a non-slip hexagrip surface and can be set up to 1m in height. The legs are adjustable to accommodate uneven surfaces. The stage comes complete with steps and safety rails as required.

A full structural report is available to view by any planning authorities as required.

The stage and roof structure will be installed by our experienced team who work to the highest standards of competence and safety.

### Pricing (excluding VAT):

## Milos MR1 6m x 4m ARC Stage

The Milos MR1 6m x 4m ARC stage is ideal for small events and boutique festivals which require an authentic festival vibe and the flexibility to rig lighting fixtures for a more comprehensive lighting set up than a trailer style stage can offer.

The Milos MR1 features heavy duty quad truss mast sections mounted onto integrated steel jack bases. The roof arches are constructed using triangular truss sections, strengthened with hook on bars. The MR1 ARC roof provides the ultimate protection from rainwater. Rear and side mesh walls are included.

The stage roof is secured to the ground using heavy duty ratchet straps and Spirafix ground pins, which are included in the hire price. If ground anchors cannot be used, for example if the stage is positioned on a hard surface or if there are utilities beneath the ground, we can supply water ballast tanks at an additional cost. Please note that the client must ensure that there is access to a mains water supply if ballast tanks are to be used.

The stage itself has a non-slip hexagrip surface and can be set up to 1m in height. The stage comes complete with steps and safety rails as required.

Side wings can be supplied for PA speakers or promotional banners at additional cost. The stage is constructed by our experienced technicians to the highest standards of competence and safety – build time is approximately 3 hours.

A full structural report can be supplied for any planning authorities that may require it. We have public, product and employer liability insurance – policy documents can be provided on request.

### Pricing (excluding VAT):

#### **Peak (April to September):**

Weekend (Saturday & Sunday) Daily Rate – £1800.00

Weekday (Monday to Friday) Daily Rate – £1500.00

Weekend (Friday to Sunday) 3 Day Rate – £3250.00

#### **Off-Peak (October to March):**

Weekend (Saturday & Sunday) Daily Rate – £1500.00

Weekday (Monday to Friday) Daily Rate – £1300.00

Weekend (Friday to Sunday) 3 Day Rate – £3000.00

### **EXTRAS:**

## Milos MR1 8m x 6m ARC Roof Stage

The Milos MR1 8m x 6m ARC stage is ideal for small to medium sized events and boutique festivals which require an authentic festival vibe and the flexibility to rig lighting fixtures for a more comprehensive lighting set up than a trailer style stage can offer.

The Milos MR1 features heavy duty quad truss mast sections mounted onto integrated steel jack bases. The roof arches are constructed using triangular truss sections, strengthened with hook on bars. The MR1 ARC roof provides the ultimate protection from rainwater. Rear and side mesh walls are included.

The stage roof is secured to the ground using heavy duty ratchet straps and Spirafix ground pins, which are included in the hire price. If ground anchors cannot be used, for example if the stage is positioned on a hard surface or if there are utilities beneath the ground, we can supply water ballast tanks at an additional cost. Please note that the client must ensure that there is access to a mains water supply if ballast tanks are to be used.

The stage itself has a non-slip 'hexagrip' surface and can be set up to 1m in height. The stage comes complete with steps and safety rails as required.

Side wings can be supplied for PA speakers or promotional banners at additional cost. The stage is constructed by our experienced technicians to the highest standards of competence and safety – build time is approximately 5 hours.

A full structural report can be supplied for any planning authorities that may require it. We have public, product and employer liability insurance – policy documents can be provided on request.

Stage Wings – £200.00

**To Book Your Hire Call : 01892 234025**

## FOH Control Riser & Gazebo - 3m x 3m

Our front of house control riser consists of a 3m x 3m GT deck stage with a professional heavy duty gazebo attached.

The gazebo roof is secured to the staging using clamps and ratchet straps, and anchored to the ground using heavy duty ratchet straps and Spirafix ground pins. If ground anchors cannot be used, for example if the stage is positioned on a hard surface or if there are utilities beneath the ground, we can supply additional ballast at additional cost.

The stage riser itself has a non-slip 'hexagrip' surface and can be set up to 1m in height. The stage comes complete with steps and safety rails as required.

The control riser is constructed by our experienced technicians to the highest standards of competence and safety – build time is approximately 45 minutes.

We have public, product and employer liability insurance – policy documents can be provided on request.

### Pricing (excluding VAT):

#### **Peak (April to September):**

Weekend (Saturday & Sunday) Daily Rate – £200.00

Weekday (Monday to Friday) Daily Rate – £180.00

Weekend (Friday to Sunday) 3 Day Rate – £350.00

#### **Off-Peak (October to March):**

Weekend (Saturday & Sunday) Daily Rate – £175.00

Weekday (Monday to Friday) Daily Rate – £150.00

Weekend (Friday to Sunday) 3 Day Rate – £310.00
